

Kasten

The manufacturer of Kasten products - Constructor Finland Oy – has been in the steel manufacturing business since 1886. We develop, manufacture and market products and services for storage requirements, for warehouse solutions as well as for archive storages and office storages, material handling, shops and retail solutions.

We are the market leaders in Finland and have the longest production history in our sector. Our manufacturing plant is situated in Lohja, close to the Helsinki Metropolitan area.

Our know-how is the result of 125 years of experience and modern vision of how to handle steel. We specialise in all kinds of storage technology – from the most rudimentary steel shelving unit to the most advanced, as well as fully automated and sophisticated turn-key projects. Our ultimate aim is to provide solution to all your storage and archive problems in a flexible, innovative and cost-effective manner.

Kasten is part of the Constructor Group.
