Automated Solutions - Storage Machines and WMS

About Constructor Group AS

Constructor Group AS provides storage, archiving and logistic solutions for use in factories, warehouses, distribution centres, archives, offices, museums, libraries, medical institutions, retail outlets and numerous other applications.

Constructor Group AS markets throughout Europe under the [Constructor](#), [Bruynzeel](#), [Kasten](#), [Dexion](#), [PSS](#) and [Constructor Logistics](#) brands.

Storage Machines and WMS is a reference in the category

Our Solutions:

- Archive Storage Solutions
- Health Care Solutions
- Library Solutions
- Long Goods Handling
- Museum Solutions
- Office Storage Solutions
- Pallet Handling Solutions
- Retail Solutions
- Small Part Handling
- Special Product Solutions
- Storage and Work Areas
- Storage Machines and WMS**
- Analysis and Simulation Tools
- Warehouse Solutions

Please visit www.constructor-group.com for more references.

Automatic Storage Machines are computer-controlled storage and transfer systems that can significantly improve the efficiency of product storage and picking.

These machines are easy to integrate with a Company's existing Warehouse Management System (WMS), but they can also be used as a standalone system. The site and operating environment determines the system's size and composition.

An automatic storage system can save up to 70% on floor space, reduce picking errors by 70% and decrease picking time by more than 60%. The most efficient way of using storage machines is to have article management included with the machine. TC2000 article management software is especially developed for Tornado, Paternoster and HOCA and it can be included as standard to all our machines.
